Any extra gymnasts/coaches must not be added to the delegation. However, they can be offered a food and accommodation package. All extra bookings will be handled separate from the delegation bookings. Accreditation cards or tickets to the official banquet must not be offered.

5 Entry procedure

5.1 Official forms

For registration of entry, official forms, which are distributed to all affiliated NF by the organizing federation at the required time, are to be used.

5.2 Deadlines

The deadlines for arrival of registration at the OC are determined by the dates of the competition, as follows.

5.2.1 Provisional registration

Provisional registration files must be sent out from OC no later than 6 months and one week before competition

Provisional registration must be sent from NF no later than 6 months before the date of the NTGC.

The OC must include a list of the apparatus that will be used at the competition, when sending out information about the provisional registration.

If the OC wishes, it is possible to run both the standard Nordic setup and the European setup in two arenas. The OC must inform which program they wish to use and announce this in the first invitation sent to the other nations.

5.2.2 Definitive registration

Definitive registration files must be sent out from OC no later than 3 months before competition.

Definitive registration of delegation members must be sent in by NF no later than 2 months before the date of the NTGC.

The definitive registration from each federation must include a ranking of the two qualified teams in each section. The presumably best team in each section should be ranked as no 1.

5.2.3 Nominative list of gymnasts, judges and officials

Nominative registration files must be sent out from OC no later than 6 weeks before competition

3 weeks before the date of the NTGC NF must send in:

The list must include:

5.4 Alterations of the nominative list of the gymnasts

Before accreditation teams are allowed to change/replace nominated gymnasts without any further action, except changes must be handed in to the OC at the accreditation.

After accreditation, and before the start of the competition, changes to the nominative list are only allowed between the registered competing gymnasts and the registered reserve gymnasts. All alterations must be handed in to the OC.

5.5 In cases of illness or injury during the competition

In cases of illness or injury during the competition, confirmed by the official doctor of the championships, it is allowed to replace the affected gymnast with a nominated reserve.

Replacing an injured or ill gymnast is optional, but gymnast needs to be excused by the competition doctor.

II TECHNICAL ORGANISATION

6 Competition format

The TeamGym Championships consists of the following sections:

- Women's teams.
- Men's teams.
- Mixed teams, i.e. 50% males/50% females.

7 Competition program

The following disciplines are compulsory for every participating team:

- Floor program
- Tumble
- Trampet

This is also the preferred running order for each team but not a requirement.

All competing gymnasts of the team must participate in the floor program. In case of illness or injury, see 5.5.

8 Technical tasks

8.1 Responsibility

The organising federation is responsible for the technical organisation and running of the competition, with the support of the NTC-TG. Competition order should always be decided with a draw.

The draw is the responsibility of the OC, and the final running order must be announced in the Work Plan. The result of the draw must be approved by the member of the NTC-TG from the organizing country.

All sections with 8 teams or more should be divided in two groups and the ranking from the definitive registration comes to effect. The presumably best team in each section in the last group.

If the federation participates with only one team in a section, then the team will be placed in the last group. If the two groups are not ideal for the running of the competition, there will be a draw to select the teams placed in the first group.

8.2 Comply with the Code of Points

Organisation, accomplishment and direction of the competition must comply with the Code of Points (EG).

8.3 Evaluation of new elements in the Code of Points

The EG Code of Points will in general be updated every second year. However, the TG-TC encourages all member Federations to submit new elements that do not yet appear in the Code of Points. The EG will respond in confidence by sending a formal letter to the Federation telling the new code number, a provisional value and a symbol. The respective Nordic Federation may then decide if the element will be performed at the Nordic Championships, before an official EG TeamGym competition. In this case, the Federation must bring a copy of the EG evaluation letter to the official judges meeting at the Nordic Championships. Performing a new element at the Nordic Championships also gives teams from other countries the opportunity to use the same element in their floor program.

9 The juries and judging panels

9.1 Judges

All judges must be holders of the EG TeamGym brevet for the corresponding cycle or be judges for national competitions in their own country. Judges with head judge positions (E1 and CD1) should be holders of the EG TeamGym brevet.

If a country does not have enough brevet judges to fill the head judge positions, they should inform the NTC-TG as soon as possible.

9.2 Nomination of judges

Each participating federation is obliged to nominate 4 judges.

9.3 Judges meeting

All judges must participate at the judges meeting prior to the competition. Tariff forms will be distributed to the judges on the evening prior to the competition day.

9.4 Dissensions and interpretations of the Code of Points

If there is any dissension between the judges at the judges' meeting when it comes to the interpretation of the Code of Points, the case will be settled by simple majority vote by the NTC-TG. All judges are obliged to follow these decisions.

It's still the head judge in the respective disciplines who's responsible for making interpretation and decisions regarding other issues in the Code of Points during the competition.

9.5 Competition jury

The competition jury consists of:

- NTC-TG (one representative from each of the Nordic countries)
- The competition director
- The head judge (E1) in the respective discipline

The NTC-TG will take the necessary decisions.

An NTC-TG member not able to attend the jury can appoint a new person from the same country to be part of the jury. The OC and NTC-TG must receive this information as soon as possible.

It is allowed at the Nordic Championships for a judge to be both judge and NTC-TG-member.

9.6 Protests

Following the rules of the EG, except it is not possible to protest over the D-score.

9.7 Judging panels

There are 3 judging panels; one for each discipline in each section. The judging panel consists of panels CD- and E-panels.

The judging panels

Floor Program:

CD-panel: Head Judge (CD1) + three judges (CD2, CD3, CD4)

E-panel: Head Judge (E1) + three judges (E2, E3, E4)

Tumble and Trampet:

CD-panel: Head Judge (CD1) + one judge (CD2)

E-panel: Head Judge (E1) + three judges (E2, E3, E4)

Drawing of lots of the judges is the responsibility of the OC, and the final judging panels must be announced in the Work Plan. The result of the drawing of lots must be approved by the member of the NTC-TG from the organising country.

Each nation shall be represented in all sections and disciplines. Each nation can only have one judge in each panel (CD/E) in each discipline.

Each nation can only have maximum 1 E1-Judge in each section, and a total of 2 E1-Judges in the whole competition (women, men and mixed).

In Floor Program, each nation can only have a maximum of 2 judges in the whole judging panel (CD+E).

The draw for judging positions is made by country, which will then be placed into the below fixed scheme of judges' positions. The draw from 2023 will be continued and the countries will move forward to the next number the next year. A new draw will be made for the 2028 Championships.
